APSI TEAM

APSI staff has more than 25 years of experience in grant writing and administration and has established processes for planning, data management and record keeping procedures. APSI has managed several projects simultaneously many times, and has the means, resources, and aptitude to scale-up quickly when extra support is needed to complete multiple commitments.

Our team has written successful grant applications to many Federal and State Agencies, which are listed on our [webpage](#). APSI's comprehensive list of Clients demonstrates the company's ability to work with a diverse group of people and a broad spectrum of projects.

APSI develops grant proposals that reflect the vision and ideas of our Clients. Draft proposals are always provided for review, comment and refinement by staff and the leadership. One of the services that sets APSI apart from other grant writers is our ability to 'vision' with the Client. Our team provides grant writing from A to Z, meaning we help the Client target their need through a brainstorming process that authentically identifies why the grant is needed, find a 'best fit' funder, write and submit the application, and assist with implementation, where needed.
